1. **Menu toggle button** - Button will toggle the sitebar menu below. This will allow for visitors to focus on the content when they are on the desired page. This will be open by default.

2. **Account Button** - This is where users will be able to sign in or sign up for an account. Once logged in the users will be able to access their account features such as editing account information (email, phone number, alert options) and creating/editing portfolios.

3. **Search Button** - This button will trigger a search field to show. The search will search the entire site and bring the user to another page where the search results will be shown.

4. **Welcome Message** - This will be a welcome message to all users visiting the home page. The goal of this is to get users to sign up.

5. **Sign In Button** - Allows users another way to sign in or sign up.

6. **Support Coordination Feature** - Image and copy featuring the Support Coordination section of the website.

7. **Service Providers Feature** - Image and copy featuring the Service Providers section of the website.

8. **People with Disabilities & Families Feature** - Image and copy featuring the People with Disabilities & Families section of the website.

9. **Whats New Section** - Will feature the 3 most recent news articles / blog posts.

10. **Popular Resources Section** - Will feature the most important documents/resources throughout the website.
